

## A Better Time to Say Goodbye

Vern Gosdin

Clouds in the sky never looked so gray  
You've been saving up your leaving for a rainy day  
You couldn't have picked a better time to say goodbye  
From my eyes the pain keeps falling through  
Cause in my heart I know I'm losing you  
You couldn't have picked a better time to say goodbye

There's a perfect place in time for everything  
A place in time to cheer me up  
No better place for me for losing everything  
For you no better time for walking out

I couldn't have timed it any better myself  
If it had been me looking for someone else  
You couldn't have picked a better time to say goodbye

There's a perfect place in time for everything  
A place in time to cheer me up  
No better place for me for losing everything  
For you no better time for walking out

I couldn't have timed it any better myself  
If it had been me looking for someone else  
You couldn't have picked a better time to say goodbye  
Oh, you just couldn't have picked a better time to say goodbye
