Favorite Fool of All

Vern Gosdin

There's no telling how many hearts you caused to break
And if the truth was known you've caused a tear in every state
Oh but I don't worry about it 'cause I know that you will call
And up till now I've been your favorite fool of all

You know I'll be there just as sure as April rains
And don't you know that if you were a picture I'd be the frame
You've got me living in a prison although I didn't break the la
w
And we both know that I'm your favorite fool of all

Oh I wish that I could stand my ground whenever you come around
But you just as well be telling me not to breathe
After all this time of standing in your life again I'll fall
I guess I'll always be your favorite fool of all

After all this time of standing in your life again I'll fall
I guess I'll always be your favorite fool of all
