

## How Can I Believe in You

Vern Gosdin

Lying here with my head on my shoulders  
That used to be my place to dream  
Now it only makes the cold nights colder  
And I'm afraid of what our future brings  
Holding you like holding a stranger  
Ah we're becoming strangers, and girl it's killing me  
You ask me to believe that it's not over, Ah but how can I believe  
in you when you'll be leaving me  
Anymore when you tell me you love me  
Somehow it just doesn't feel the same  
And I can't help believing there's another  
cause you've been whispering in your dreams  
Holding you like holding a stranger  
Ah we're becoming strangers, and girl it's killing me  
You ask me to believe that it's not over,  
Ah but how can I believe in you when you'll be leaving me  
Holding you like holding a stranger  
Ah we're becoming strangers, and God it's killing me  
You ask me to believe that it's not over, Ah but how can I believe  
in you when you'll be leaving me

How can I believe in you when you'll be leaving me
