

I'd Better Write It Down

Vern Gosdin

I stayed up all day
Just to watch the sun go down
These days I never know
How much longer I'll be around

But when I go at least she'll know
I saw all she wanted me to see
If I can leave that on paper
I'll be so proud of me

Sometimes what we say is gone
As soon as it's said
But if your eyes can read feelings, I'm leavin'
Then I'll never be dead

Today I saw the open door
I know will surely set me free
If I can go through it with a smile
I'll be so proud of me

If I'm gonna leave somethin' behind
I'd better write it down
'Cause I know to capture all that I can
While I'm still around

'Cause I'd know the written word
Won't follow me into the ground
So if I'm gonna leave somethin' behind
I'd better write it down

If I'm gonna leave somethin' behind
I'd better write it down
