

Let's Don't and Say We Did

Vern Gosdin

My batteries must be dying
Because you sound so different
When did it change?
When did it
Start to feel different?
You say, We'll work at it
Let's not and say we did
Let's not and say we did
Oh baby
It doesn't matter how hard we try
Because last evening
Our love committed suicide
I thought I was destined
To stand out in your collection
Like the rare B-Side
You were always missing
The big twist might be at the end
But, we left at intermission
You said, We can go back in
Let's not and say we did

Oh baby
It doesn't matter how hard we try
Because last evening
Our love committed suicide
Well, I'm all for second chances
But, my butterfly there isn't one to give
Last night love called it
There was no reason to live
A billboard that passes
Too fast to read the message
Let's go by again
Let's not and say we did

Oh baby
It doesn't matter how hard we try
Because last evening
Our love committed suicide
Oh baby
It doesn't matter how hard we try
Pushing daisies
Our love committed suicide
