

## Nickels and Dimes and Love

Vern Gosdin

Remember when pocket change was all we had  
And all those calls from the corner phone booth collect to mom  
and dad  
And that old worn out couch was called our bed  
When out cuisine was pork and beans, baloney and day old bread

Remember that damn old car that kept on breaking down  
And all the times it left me stranded thumbing all over town  
And that old weekly paycheck just never stretched enough  
Back in the times of nickles and dimes and love

Together we sure made some dreams come true  
Sometimes it wasn't easy but somehow we made it through  
And when I get to thinking times are touch  
I remember the times of nickles and dimes and love  
Oh, those good old times of nickles and dimes and love

Remember digging through you old purse in hopes we'd get  
Enough change for an RC Cola or a pack of cigarettes  
Now we've got almost everything that we were dreaming of  
Back in the times of nickles and dimes and love

Together we sure made some dreams come true  
Sometimes it wasn't easy but somehow we made it through  
And when I get to thinking times are touch  
I remember the times of nickles and dimes and love  
Oh, those good old times of nickles and dimes and love  
Together we sure made some dreams come true  
Sometimes it wasn't easy but somehow we made it through  
And when I get to thinking times are touch  
I remember the times of nickles and dimes and love

Do you remember those good old times of nickles and dimes and love?
