Who You Gonna Blame It On This Time

Vern Gosdin

Oh, you say that it wasn't your fault The reason that you're late You had some good excuses And your alibis are great

You think by now you would have Used up all your lies Who are you gonna blame it on this time?

Get out in the open So I can plainly see You have never failed At making me believe

Oh, I can't wait to hear I like to see you shine So who are you gonna blame it on this time?

Oh, I want to believe you And I do every time It's what keeps us together And that's fine

So I can't wait to hear I like to see you shine So who are you gonna blame it on this time?

Oh, I want to believe you And I do every time It's what keeps us together And that's fine

So I can't wait to hear
I like to see you shine
So who are you gonna blame it on this time?
So who are you gonna blame it on this time?
