

Yesterday's Gone

Vern Gosdin

Once upon a time
There was tomorrow
But that was yesterday
And yesterday's gone

The dreams that we shared
Have all been forgotten
For they were yesterday's
And yesterday's gone

You once wore my name
And stood here beside me
But that was yesterday
And yesterday's gone

You gave me your heart
And loved me so sweetly
But that was yesterday
And yesterday's gone

I can see now
Where I took your love
For granted

I can see now
All the times
I've done you wrong

I thought I knew
The things in life I wanted
But that was yesterday
And yesterday's gone

And yesterday's gone
And yesterday's gone
