

# It's OK

Verona

Seems like you're ready to move on  
So don't you leave me waiting here till dawn  
And if you're ready, don't be scared  
I'm gonna teach you how to share  
Like a love millionaire

I feel your body heat  
By simply looking at you  
So shy, so sugar sweet  
This kiss has been overdue

It's okay with me  
Take your time  
Baby, no need to rush  
It's okay with me  
As long as you can give me  
Loving more than a crush

It's okay with me  
Take your time  
Baby, no need to rush  
It's okay with me  
As long as you can give me  
Loving more than a crush

Boy, what's the holdup, let me know  
Ain't gonna bite you, so come on, let's go  
I'm right here waiting for your move  
You better get into the groove  
There is so much to prove

It's okay with me  
Take your time  
Baby, no need to rush  
It's okay with me  
As long as you can give me  
Loving more than a crush

It's okay with me  
Take your time  
Baby, no need to rush  
It's okay with me  
As long as you can give me  
Loving more than a crush

It's okay with me  
Take your time  
Baby, no need to rush  
It's okay with me  
As long as you can give me  
Loving more than a crush

It's okay with me  
Take your time  
Baby, no need to rush  
It's okay with me  
As long as you can give me

Loving more than a crush
