So Tired

Veronica Falls

Show me a sign to satisfy, have it all
(Show me a sign and you will see me)
Send me so good if I've

Take me aside or take me somewhere at all
(Take me aside, take me far away)
Someone's done something true

When you think about the people you know
So tell them
Think about the people you know
Sick and tired

Fly to the sky, I see a constellation
(Fly to the sky and you will see)
Somewhere there's something new

Break from the stride and if I have a season
Head for the sky and see the change
Out there there's something true

When you think about the people you know
So tell them
Think about the people you know
Sick and tired of them all
