

## The Authors

VersaEmerge

They're letting their eyes cross  
'Cause they don't know, they don't know what we know  
That these lights are only here  
To lead us in the wrong direction  
Or to a false impression

Impact is up to us

And it's all these days that kept us so far away  
We can break out of this name  
We could give ourselves meaning  
We were never sorry for the choices that we've made  
Not to sing in your name, but what is faith

Not in the mood to chase  
Not after these things will never change  
A small claim to the stories we've told  
Who says we're wrong  
With waking arms we stood so strong

Impact is inevitable and it's up to us

And it's all these days that kept us so far away  
We can break out of this name  
We could give ourselves meaning  
We were never sorry for the choices that we've made  
Not to sing in your name, but what is faith

I hope I'm not the only one  
With these words sitting on my tongue  
I'm not afraid to say this  
Only drowning men could see  
That's not enough for me

And it's all these days that kept us so far away  
We can break out of this name  
We could give ourselves meaning  
We were never sorry for the choices that we've made  
Not to sing in your name, oh what is faith
