

A Friend

Verse Simmonds

You know I always pimp it real what you mhm mhm
And then you said that you were leavin'
Then I lied so you could stay.
What you're doing wasn't ready
We talked somebody that we [?]
Now you're there and you cry
And inside I feel like dying
And you can't see it in my face
But I never meant for it's a hurt this way
In the end I hope you could've at least be friend.

I don't really wanna lose ya
And I don't know what I do to you
I guess we gave it a try,
Goodbye, goodbye-bye.
And if I'll ever fall in love again
I promise you'll be afraid
A friend, (I promise), a friend (I promise)
And if I'll ever fall in love again
I promise you'll be [?]
A friend, (I promise), a friend (I promise)

Oh I got it, ohh no I got it, oh no I got it

And send about love something so true
But she don't need to
Except about love something so true
But she only 22

You know that nobody love ya
Like the way that I love ya
No lie, no lie, this is more than just a game
I was the perfect picture
If the perfect one ain't with ya
It ain't right, if you ain't mine
Nothing even matters.

If you just hold on,
Hopeless already, sleep this is [?] big city
You believe in magic, you believe in love
But you're so scared to be loved, you've been that
And the good girl never come back
The bad one just give up
Said I wanna love with no regret
And I pray that the next time she'll be afraid.
