

# Fine Chyna / Fully Loaded

Verse Simmonds

Like the crystalgram, I wanna meet you dinner out at 4  
Precious dimonds on the ring of a gold mine and oh  
You're like fine chine, expensive wine, primadonna  
Straight killa gipsy is charged, yes your honor  
Billie Jean is not my lover, I knew it did supremes  
She wasn't really fuckin with me til I asked in  
Finding somebody real, that's a task in itself  
You never know who really down or is this the wealth?

I said baby, does he do it for you?  
Does he let you know like every day that you're so gorgeous?  
Girl I wouldn't know  
'Cause I think you deserve that kind of guy  
Oh why?

Hey pretty baby, you know I adore you  
And can't nobody tell you that I shouldn't spoil you  
If they knew what I know  
They'd see that there's nothing more beautiful

You're not a tid bit, no  
I just can't seem to get enough

This here, that ace of spades flow  
You say on the rock the case loads  
Dolce Gabana mama by designer  
Got the I'll shades and the whole thing Cabana  
Got the I'll face lookin like Nostradamus  
Got to play your ways and I'm talkin that Nas shit  
Gucci whilin for a dollar if you bout it  
You fine china and them niggas can't afford it

You saw me blazin up  
You're worth that, chase your gold in you  
It's all ready, I'm the dangerous

I told er Take off work, call in sick  
Give me some of that, I'll give you some of this  
Let it all out, I'm a put it all in  
Now she on the telephone tellin all

Oh baby this evening  
You know you better let me in  
I wanna give you this feeling  
That you been missin

But for now we came here to party  
And then we goin to the after party  
You fully loaded, don't hurt nobody  
I hope you got a permit for that body

Little black dress, six inch preps  
Girls' night out, lookin for the fun  
You not the type to go so hard  
But no one knows how drunk you are

Lookin at me, lookin at you

I know what you wanna do  
Girl I want you now and later  
Come hop on my elevator

Getting it, getting it  
You're so dangerous  
Hotter  
Like a small thing done, na na na  
Sexing, sexing  
And when I hold you in my hands  
I know that you're special  
And I don't wanna let go

Oh baby this evening  
You know you better let me in  
I wanna give you this feeling  
That you been missin  
(I I I wanna give it to you)

But for now we came here to party  
And then we goin to the after party  
You fully loaded, don't hurt nobody  
I hope you got a permit for that body

If I told you come jump on the stage what would you do?  
The ask anybody in here where's your shoes  
Stars getting tatted, I'm nigga tucked and it's gone  
3 words for the way I do it, out of control  
There's shit that these rap niggas talk, I'm real about that  
Nigga really done what he said? I really doubt that  
Now Dom piece bottles and bottles and good liquor  
That's the recipe to get to the sex quicker  
No quickies, no vickus  
You gotta get home to your man so no hickies  
See you got them Loubuttons on, leave em you're here  
I'm a buy ya'll a new set of Forgiato whips

Oh baby this evening  
You know you better let me in  
I wanna give you this feeling  
That you been missin  
(I I I wanna give it to you)

But for now we came here to party  
And then we goin to the after party  
You fully loaded, don't hurt nobody  
I hope you got a permit for that body

With you, beauty is the only point of view  
And out of all these girls in here  
I see you, I see you

Not the typical  
That's something I could get used to  
It's whatever you want  
That's what we can do  
'Cause you're so, you're so

Getting it, getting it  
You're so dangerous  
Oh, you so hot  
Hotter  
Uh damn girl like a small thing done, na na na

Sexing, sexing  
And when I hold you in my hands  
I know that you're special  
And I don't wanna let go

Oh baby this evening  
You know you better let me in  
I wanna give you this feeling  
That you been missin  
(I wanna give it to ya)

But for now we came here to party  
And then we goin to the after party  
Goin to the after party  
You fully loaded, don't hurt nobody  
I hope you got a permit for that body
