

## First To Last

Verse Simmonds

Since I found you,  
Everything's clear now, my world seems brand new,  
You opened the door to my heart, and you just walked through  
I was just like any other, from lover to lover, like a damn fool  
Never had nothing to lose,  
Just when I least expected it, you came along and  
Changed me for the better, and now I got a new plan

You're my first love, like the first kiss  
You're the first one that I'll miss  
From the first day that we first met  
For the first time I know you'll be  
The first to be my last  
You know that you're special, and I'm lucky that I found you baby  
You be the first to be my last  
Don't need to search no more, yeah  
Uh baby, I ain't going nowhere

You're the missing piece to the puzzle in my life  
Baby 'cause you're bad and you know it  
When I wanna throw it, I just wanna love you right  
Because a man is just a man,  
Without someone who can always be there  
I almost gave up and just when I least expected it, you came along and  
Changed me for the better and now I got a new plan

You're my first love, like the first kiss  
You're the first one that I'll miss  
From the first day that we first met  
For the first time I know you'll be  
The first to be my last  
You know that you're special, and I'm lucky that I found baby  
You be the first to be my last  
Don't need to search no more, yeah  
Uh baby, I ain't going nowhere

Oh, uh baby, baby  
Oh

Just when I least expected it, you came along and  
Changed me for the better and now I got a new plan

You're my first love, like the first kiss  
You're the first one that I'll miss  
From the first day that we first met  
For the first time I know  
You're my first love, like the first kiss  
You're the first one that I'll miss  
From the first day that we first met  
For the first time I know you'll be  
The first to be my last

Uh baby, I ain't going nowhere.
