

## Let Me Know

Verse Simmonds

Girl you know I'm feeling you  
Yeah when it's just us two  
Mean no disrespect to you  
But if that's your girl, can she come too?  
Let me know, let me know  
Baby you can come and she can come too  
Let me know, let me know  
Baby let me know if she can come too

Baby I don't mean no disrespect  
Maybe it's the liquor, maybe I'm just lit  
Maybe I'm just imaging shit  
But it can't hurt to try, no no way  
Keep it real with the fly  
We can fuck in the mirror  
Me, you and her  
A triangle affair  
I got loving to tell you, you know what it is  
You be talking that shit, I been waiting for this  
Hurry up, I'm not late  
Hope you don't feel no way, I been thinking about this all day  
She being on you and you being on me  
We can make this shit one big party  
And I hope you not selfish baby  
Cause I'm feeling you, I'm feeling

Might think that I'm wrong for this  
You might think that I'm scandalous  
And I don't know if you into this  
But I can't help but notice  
You admiring her, she admiring you  
Got all up on each other, y'all up to no good  
Body language  
I can read your body language  
I can see your real intentions  
Y'all ain't fooling anybody  
And it's right after the party  
We gon have ourselves a party

Your flirting days all over each other  
Y'all smacking ass and God damn, I love it  
We ain't gotta play by the rules  
Let's go ahead and get us a room
