

Make Up

Verse Simmonds

Call it up
Last night, ahh sounds

I know that you fuck with me
Girl you know you stuck in me
We gon' make some love tonight
Might be on the drugs tonight
Girl why you trippin'? We just can't get it right
I paid attention, I just don't pay enough
Time to expensive, I just don't got it all
Let's not waste it on that petty shit
We should just fuck right now

Man, I give up
Whatever it was it ain't work, ah

I just wanna make up, I wanna make up
I just wanna make up, I wanna make up
I just wanna make up, I wanna make up
I wanna make up, I just wanna make up

I'm just try to make love when we let go
I'm just try to make love when we let go
I'm just try to make love when we let go
I'm just try to make love when we let go

I don't wanna fight tonight
I'm just turned them back tonight
Tell me what I'm doing wrong
Come and let me do it right
We've been through all down
We've been through long [?]
Let's figure it out
Always the same shit, we could've been quit puttin' me out
Times too expensive
I just don't got it all

Let's not waste it on that petty shit
We should just fuck right now

Man, I give up
Whatever it was it ain't work, ah

I just wanna make up, I wanna make up
I just wanna make up, I wanna make up (I do)
I just wanna make up, I wanna make up (only you)
I wanna make up, I just wanna make up

I'm just try to make love when we let go
I'm just try to make love when we let go
I'm just try to make love when we let go
I'm just try to make love when we let go

We taking shots by the [?]
I ride that pussy like a camel
We lit the world like a candle
I went and got your favorite candles

We set the rule on five ya
Spark a flame like a lighter
