Power Trip

Verse Simmonds

Got me up all night, workin at yo body baby
Got me up all night, spending all of this money baby
Got me up all night, got me up all night
Got me up all night, all night

Look at you baby, look at you, look at you
The way your body movin, what you do? What you do?
The way you go down that pole (oh oh oh oh)
Would you believe me if I said I'm in love?

All this money in my thousand dollar pockets (yea yea yea)
Champagne bottles just keep on poppin (yea yea yea)
The DJ's callin all girls to the stage (yea yea yea)
And the strobe lights make me feel some type of wave... it must be the drugs

I'm gwaped up but she down the cut
And I'm payin that, I don't usually
She know the name, she like the fame
This VVS society

And she high as fuck
And I think she wanna fuck (yea yea yea)

Got me up all night, workin at yo body baby
Got me up all night, spending all of this money baby
Got me up all night, got me up all night
Got me up all night, all night

Look at you baby, look at you, look at you
The way your body movin, what you do? What you do?
The way you go down that pole (oh oh oh oh)
Would you believe me if I said I'm in love?
