

Turn On The Lights

Verse Simmonds

I'm looking for her
I'm looking for a warning sign
She wanting me
Tell me the place and time
I got a new girl who ain't right
I got an old girl but after all life
I've been thinking bout the right things I should say
I've been thinking bout all the places we could go girl I'm gonna pay
I get the chance I hit it like a nigga just stepped out the jail
She keep it real and I keep it real that's my honda it's so trill

Oh she's down for whatever, she make her own cheddar
And if you need some is she got me she ain't stressing this whatever
I wanna tell her where to find you so that they can get jealous
If you see her for I do tell I wish that I met her

I'm looking for you
I heard she keep her promise and they never turn on you, never turned on you
I heard that she ain't gonna cheating, she gonna never make no move
I heard she be the any tell you nigga she gonna do
Turn on the lights, I'm looking I'm looking for, I'm looking for
Turn on the lights, I'm looking for, I'm looking for
I'm looking for, I'm looking for
Turn 'em on 'cause I wanna see her
Where she at 'cause I wanna meet her
Hop inside baby let's go
Hop inside baby let's go, hop inside baby let's go

Turn her my way tell her I've been looking for her in the broad day
Hanging with the dope boys in the hard ways
And I know to keep her yeah yeah gotta get that pay
Turn on the lights I'm looking for her too
I heard she got a pretty face standard like a stallion
I heard that she a precious jewel you treat her like medallions
I wanna be the on who find her if I go to prailing
And if I get to know and you know I can wait to dial it
And if we get together girl you know we gonna be willin
When we get together we make magic in this house
Whenevers you in pain and nobody can do about it

Turn on the lights I'm looking for her too
I heard she keep her promise and they never turn on you, never turned on you
I heard that she ain't gonna cheating, she gonna never make no move
I heard she be the any tell you nigga she gonna do
Turn on the lights, I'm looking I'm looking for, I'm looking for
Turn on the lights, I'm looking for, I'm looking for
I'm looking for, I'm looking for

Tell her I skate and shout it down the urban bitch I need my space
And she gon' ride this dick I had a long day
She said cum anywhere you want I give her a santa claus face
We gon' turn up tonight that pussy feel new
But we be fucking way before I went to write this alley
And she got a man I think he gayer than a stylist
I wish we were both single like a couple of dollars
And when we get together she be on that Miley Cirus
So we eat each other up like some somalians

She know I got a girl but she keep that shit a thousand
Whenever she together she don't ever ask about her
She just be like, this pussy for you
I say come and eat this bong and start beating dog food
And she got that middle name covered as a wild wound
She lay me on the back and then she blow me like boom
Then I turn on the lights then look in her eyes
Girl that pussy too tight you need a pussy massage
She got a body like a mermaid she a plus versay
I put her in her place and that's first place
Don't you tell her I scared I ain't got no worries no Frank Ocean I'm straigt
