

# Better Off Alone

Versus Me

I don't wanna feel this way  
Maybe I'm going insane  
Will I ever be okay  
If it doesn't kill me

Living in a hell you made  
Every time you lie to my face  
I just need to get away  
Before it's too late

'Cause you promised me forever  
You made me believe I'd never  
Feel like I was  
Better off, better off alone  
Better off, better off alone  
Better off, better off alone  
Better off, better off alone

You became the enemy  
When you tried to take everything  
Will I be the one to blame  
If it doesn't kill me

Living in a hell you made  
Every time you lie to my face  
I just need to get away  
Before it's too late

'Cause you promised me forever  
You made me believe I'd never  
Feel like I was  
Better off, better off alone  
Better off, better off alone  
Better off, better off alone  
Better off, better off alone

Look me in the eyes  
I know you'll try  
To take what is mine  
And leave me to die  
Your clever disguise  
I can see right through you

'Cause you promised me forever  
You made me believe I'd never  
Feel like I was  
Better off, better off alone  
Better off, better off alone  
Better off, better off alone  
Better off, better off alone
