

Control

Versus Me

Can't take another moment passing by, contemplating this wasted time

Don't shut me in, it feels like it never ends
(Is it worth it?) I won't forget

Don't pull me under

Take me away from here
Make it all disappear
Just let me live my life
I've fallen far behind
And I won't be controlled by you

By you

Please don't hold me just let me go, let me go
Cause I've been dying to say it, I'm trying to let you know
(Let you know) Don't pull me under

Don't pull me under

Take me away from here
Make it all disappear
Just let me live my life
I've fallen far behind
And I won't be controlled by you

You're such a hypocrite
I'll say it
Fake

Please don't hold me just let me go
Don't pull me under

Take me away from here
Make it all disappear (don't pull me under)
Just let me live my life
I've fallen far behind
And I won't be controlled

Take me away from here
Make it all disappear
Just let me live my life
I've fallen far behind
And I won't be controlled by you
