Flatline

Versus Me

(And the signs are always there)
(And the signs are always there)
(Where did we go wrong? Is there something in the water?)
(Does anyone have an answer?)
(What is going on? Is there something in the water?)
(Cause this can't go on forever)

Everyday it's someone new and
Some you've heard of, some you have no clue
I wish it wasn't true, but what can you do?
Everyone has their way to cope
We've all been up against the rope

And I think it's about time
We read between the lines

Where did we go wrong?
Is there something in the water?
Does anyone have an answer?
What is going on?
Is there something in the water?
Cause this can't go on forever

Jealousy from the news feed
Is a new disease that we didn't need
It can twist our thoughts and, our goals and our needs
Comparison is the thief of joy
We're all watching to fill a void
Where do you turn when there's nowhere else?
Can you stop and reason with yourself?

And I think it's about time
We read between the lines

Where did we go wrong?
Is there something in the water?
Does anyone have an answer?
What is going on?
Is there something in the water?
Cause this can't go on forever

And the signs are always there
A one way ticket to nowhere
There's no way you can prepare
If a flatline one day appears
No (No way no way)
Nothing bad can last forever
And one day it will get better

Where did we go wrong?

Is there something in the water?
Does anyone have an answer?
What is going on?
Is there something in the water?
Cause this can't go on forever

Where did we go wrong (Where did we wrong?)
What is going on? (What is going on?)
Where did we go wrong?
Cause this can't go on forever
