

Left Here

Versus Me

(Don't wanna be left alone, I need to be far from home)

Don't wanna be left alone, with a pen and a pad 'cause I'll tell you something

I need to be far from home 'cause there's too many things that remind me I'm nothing

I finally start to feel, the work I've done means something

I finally feel, I finally feel (Whoa)

I need to get far from here, I need to do this on my own

Wherever you are you'll hear, wherever you are

Don't wanna be left alone with a pen and a pad 'cause I'll tell you something

I need to be far from home, 'cause there's too many things that remind me I'm nothing

(Whoa oh oh oh oh) I don't wanna be left here anymore

(Whoa oh oh oh oh) I don't wanna be left here anymore

(Don't wanna be left alone, I need to be far from home)

(Whoa oh oh oh oh) I don't wanna be left here anymore

Where do we go from here? Everything has changed so fast

I can feel our chance is near, maybe this was always the path?

I need to get far from here, I need to do this on my own

Wherever you are you'll hear, wherever you are

Don't wanna be left alone with a pen and a pad 'cause I'll tell you something

I need to be far from home, 'cause there's too many things that remind me I'm nothing

(Whoa oh oh oh oh) Have you ever felt like this?

(Whoa oh oh oh oh) I don't wanna be left here anymore

(Don't wanna be left alone, I need to be far from home)

(Whoa oh oh oh oh) I don't wanna be left here anymore

(Whoa oh oh oh oh) I don't wanna be left here anymore

(Whoa oh oh oh oh) I don't wanna be left here anymore

(Whoa oh oh) I don't wanna be left here anymore
