

Terrified

Versus Me

Holdin' my ground if things get loud
Here in my head it's over now
Bite my tongue, I won't give in
I'm better off without this

Step back, relax and breathe in
Fake it, take it, take it
Everything's fine, I pretend
Fake it, take it, take it
You don't know, you don't know where this road goes

We fight, 'cause I can't get this right
There's nothing left to hide
And I know deep inside
I've swallowed all my pride
'Cause I can't get this right
There's nothing left to hide
And I know deep inside
I'm terrified

I'm wearing thin so take this in
When it's over, no one wins
Save your breath and don't forget
I'm better off without this

Step back, relax and breathe in
Fake it, take it, take it
Everything's fine, I pretend
Fake it, take it, take it

We fight, 'cause I can't get this right
There's nothing left to hide
And I know deep inside
I've swallowed all my pride
'Cause I can't get this right
There's nothing left to hide
And I know deep inside
I'm terrified

You don't know, I'm letting go
I'm at the end of my rope
You don't know, now you know
This is the end of the road...

You don't know, you don't know I'm at the end of my rope
You don't know, you don't know where this road goes

We fight, 'cause I can't get this right
There's nothing left to hide
And I know deep inside
I've swallowed all my pride
'Cause I can't get this right
There's nothing left to hide
And I know deep inside
I'm terrified

'Cause I can't get this right (we fight)

There's nothing left to hide (to hide)
'Cause I know deep inside
I'm terrified
