

Violence

Versus Me

I don't wanna do this
I'm not making any excuses anymore
I don't wanna do this
But I won't want stand in silence

Break me down, replayed it in my mind
Turned it inside out
Holding back, about to cross the line
Trying not to react

I feel a rage inside me rising
You break me down but I'm not hiding

I don't wanna do this
I'm not making any excuses anymore
I don't wanna do this
But I won't want stand in silence

I'm on the verge of violence

Standing strong, I'm backed against the wall
Don't wanna lose control
No way out, ready to face it all
Thoughts are getting too loud

I feel a rage inside me rising
You break me down but I'm not hiding

I don't wanna do this
I'm not making any excuses anymore
I don't wanna do this
But I won't want stand in silence

I'm on the verge of violence

Destroy everything, there's no stopping me
No compromise
Destroy everything, there's no stopping me
Nowhere to hide

I don't wanna do this
I'm not making any excuses anymore
I don't wanna do this
But I won't want stand in silence

I'm on the verge of violence
