

Evermore

Vertical Horizon

Out in the haze of the distance,
You're never sure but you're listening,
Static in and fading out,
Like a sound in the city,
Just a long lost memory,
Echoing in the underground,

I know you can't sleep,
You just look for love,
Evermore,
I pray your soul to keep,
And you just look for love,
Evermore

You felt the spark,
But you missed it,
You can't live your life 'till you risk it,
Still the trash in the barrel burns,
It would go if you let it,
All the pain could be ended,
I'm right here but you never ever

I know you can't sleep,
You just look for love,
Evermore,
I pray your soul to keep,
You just look for love,
Evermore,
Evermore,

Hanging on,
Evermore,
Hanging on,
Evermore,
Never be enough,
Never be enough,
No I'll never ever be enough,
Never be enough,
No I'll never ever be enough,
Never be enough,
No I'll never ever be enough,
Never be enough,
No I'll never ever be enough,

I know you can't sleep,
You just look for love,
Evermore,
I pray your soul to keep,
You just look for love,
Evermore,
Evermore,
Hanging on,
Evermore,
I'll be hanging on,
Evermore
