

## For Days

Veruca Salt

It's icy out, it's warm inside  
Like a furnace in her eyes  
Tonight's the night to celebrate  
Take a picture Polaroid  
Remember all the girls and boys  
Take a seat and pass the plate  
This is how we stay awake

Her favourite song's about to end  
It's public enemy again  
And you can say you knew her when  
Tuck her in give her a cake  
Tell her everything can wait  
So she won't have to medicate  
So she won't have to stay awake

For days (such a blast)  
For days (such a trip)  
For days (such a trip)  
For days (such a blast)  
For days (such a trip)  
For days (such a blast)
