It's only perfection
You're only running scared
You just might get there

You burn it
Deserve it
It's got a rope around your neck
It wants your last breath

God save you Save you God save you Save you

You're bleeding
Receding
Believing every little lie
You're so tired

And it's hurting me And it's hurting you And it burns through Every thing you touch I miss you so much

God save you
Save you
Save you
I'm not blaming you
Blaming you
Blaming you
God save you
Save you

She's an innocent freak She's an innocent freak She's an innocent freak And I'm bored

God save you
Save you
Save you
God save you
I'm not blaming you
Blaming you
God save you
Save you
Save you
Save you
God help me
Help you
