

Venus Man Trap

Veruca Salt

Waiting for opportunity to strike.
I have been your biggest fan.
What a tour.
A little blow to cure your fright,
it's what it takes to trap a man.
Water me, I am not a desert plant,
and there was life before you.
(When I close)
Will I wear my blue eyes?
(When I open)
This time
(When I close)
Or should I wear my green eyes?
(When I open)
That shine and shine
(When I close)
Will I wear my green eyes?
(When I open, ... I love you) (4x)
In my room,
Underneath the microscope.
I thought you knew,
I was always full of hope.
But you could only help yourself.
(When I close)
Will I wear my blue eyes?
(When I open)
This time.
(When I close)
Or should I wear my green eyes?
(When I open, oh...)
That shine and shine
(When I close)
Will I wear my green eyes?
(When I open, ... I love you) (4x)
Will I wear my blue eyes?
This time
Or should I wear my green eyes?
That shine and shine
(When I close)
Will I wear my blue eyes?
(When I open)
This time
(When I close, oh...)
Or should I wear my green eyes?
(When I open, open...)
That shine and shine
(When I close)
Will I wear my green eyes?
(When I open, ... I love you) (4x)
