

Juvenescence

Verzache

I am so high
I can almost touch the sky
I am so done
One more drink and I might die
(One, two, three, four)

Just control yourself
I can be your help
Just don't give up too quickly
Now, ow

I can give you love
I can show you around town
And tell you what you need to know at all

Just control yourself
I can be your help
Just don't give up too quickly
Now, ow

I can give you love
I can show you around town
