

## Last Year

Verzache

Last year  
I was stupid  
Last year  
Was in the basement  
On the same shit  
Hiding from the same bitch  
Losing all my mind then  
Remember I got time now  
Think I gotta calm down  
I think I gotta calm down

Back now  
Didn't think I new it  
I didn't think I'd do this  
I didn't think I'd do this  
Surprised how far I made it  
Think I'd be dead now  
I thought I'd be dead  
I thought I'd be dead now  
I thought I'd be...

So much less than this  
But I don't really care right now  
I don't really care right now  
I'm working on myself right now  
I could prove it  
I'm not useless  
I could prove it  
I'm not useless  
I can prove what I can do  
I can do anything I wanted to

Oh my god  
Can't believe  
Lose my breath and I drop to my knees  
The feeling has changed and I know there's better days  
So I sound like before when I feel it upon my face, [?]  
And I can't wait to say that I'll never feel the same  
Is it too much too ask, I just crave a change  
I got what I always wanted and I feel the same
