

# Messed Up

Verzache

All messed up, a little mad  
I've been losing my mind since the start, baby  
I'm fed up, a little sad  
I wish that I could show you my bomb, baby

These hands  
Only thing I got to show me I can  
Anything to help me understand  
I don't feel right  
And sometimes I scare myself

I've been thinking all my life of war  
And I think I found myself, been lost in all the glory  
Lesson won't stop, I start to jump right off the wall  
And they can meet, I'm good 'cause I don't need you no, need you no more

All messed up, a little mad  
I've been losing my mind since the start, baby  
I'm fed up, a little sad  
I wish that I could show you my bomb, baby  
All messed up, a little mad  
I've been losing my mind since the start, baby  
I'm fed up, a little sad  
I wish that I could show you my bomb

Sleeping, no time  
Love done so  
Sleeping, define  
All I know  
Hit up my line  
We can kick it for sure  
Look at my eyes  
Got me crazy for you

Uh, uh, uh  
Just let me know, just let me know  
Uh, uh, uh  
And to the future I will go  
Uh, uh, uh  
Just let me know, just let me know  
Uh, uh, uh  
And to the future I will go

Just let me know, just let me know  
And to the future I will go  
Just let me know, just let me know  
And to the future I will go

All messed up, a little mad  
I've been losing my mind since the start, baby  
I'm fed up, a little sad  
I wish that I could show you my bomb, baby  
All messed up, a little mad  
I've been losing my mind since the start, baby  
I'm fed up, a little sad  
I wish that I could show you my bomb, baby

And I know that I'm  
I'm messed up, you'll never figure me out  
And I know that I'm  
I'm messed up, you'll never figure me out
