

Never Gets Old

Verzache

Countless times I've tried to impress you
Ain't gettin' me nowhere
Birthmarks along with a couple tattoos
The only thing stickin' to ya is that I could get through
After all, it's me who broke your heart tryna fix it with glue
(Can you gi-gi-give a chance for me to-?)

I still want ya
It never gets old, it never gets old
Keep on waitin'
For this to get old, it never gets old

Woah, in a minute (Minute)
Long time, I thought you started to regret it (Regret it)
Bought love, man, I've always been a cynic (Cynic)
Just call you and we chat and I'm in it
Gimme the low down
When you, when you gonna come 'round?
I'll admit it, I'll admit it, gotta slow down
Sometimes I don't know how to act
(Don't fake, no disrespect)

I still want ya
It never gets old, it never gets old
Keep on waitin'
For this to get old, it never gets old

Love, I know I ya
Barely know 'bout myself
Thinking I lied enough
Scared to see the mess we made
Double-sided at trust
Time to make a deal and cut
What a guy with no words
(Can you gi-gi-give a chance for me to-?)

I still want ya (I still want ya)
It never gets old, it never gets old
Keep on waitin' (It never gets old)
For this to get old, it never gets old
It never gets old, it never gets old
It never gets old, it never gets old

Dreamin' way too much
My dreams are all I want
Dreamin' way too much
My dreams are all I want
