

## Terrified

Verzache

Okay  
On to the next one  
I learned my lesson this time  
Don't sharing sidewalks  
You're shooting sawed offs  
And no surgeon can pull the words  
They're buried deep  
So I'm throwing my heart out

All the good times  
Love you for a while  
Didn't always get along well  
But I think about her often

I'm terrified  
Cuz I don't wanna miss this  
No I don't wanna miss this  
I'm terrified  
Just wanna forget this  
This is all a nuisance

Oh my god I'm on my hands and knees  
One more love the thought is eating me alive  
I can't believe I'm breathing  
Oh why do I even care about  
Finding someone to take hold  
And knowing that I'm not alone  
Pain I don't know that it worth it  
But I sure know I'll keep on searching

All the good times  
Love you for a while  
Didn't always get along well  
But I know I miss her often

I'm terrified  
Cuz I don't wanna miss this  
No I don't wanna miss this  
I'm terrified  
Just wanna forget this  
This is all a nuisance
