

# Think About It

Verzache

Caught in the lust  
Caught in a rut  
Got me caught in your love  
Caught in your love  
Caught in the lust  
Caught in a rut  
Got me caught in your love  
Got me caught in your love

But I try not to think about it  
Still think about my ex [?]  
And I try not to think about it  
Still want it  
If you need me  
(Still want it)

If you need me  
Wanna see me  
It'd be wise to forget all that shit  
In my head  
Never sober, keep that feeling [?]  
It's a part of me I guess  
Part of me that gets me upset

Popping the pills  
Smile on my face

Put a smile on my face  
Down on the ground  
Used to the pain  
So I lied in the blunt  
We up like a plane

Why do I get these old problems  
These old problems  
Words in my dreams, see them often

And I try not think about it  
Yeah, but I think about it as long as I live  
Still gonna think about it  
Still want it  
If you... if you need me

Know I got a couple problems  
Nothing that you haven't heard of  
Same worry, man, it's always touch and go on my word  
No one gonna take a moment  
Head over to hug my momma  
Got me covered, always talking sense in to me  
Crossed up, keeping me up [?]  
And I won't complain, man, you know I really

Try not to think about it  
Still think about my ex [?]  
And I try not to think about it  
Still want it  
If you... if you need me

Still want it
