

Time

Verzache

Focus on the time to help myself
I-I only need the time to get some help
Then the sooner I'll feel fine, I know that though
I see it in my mind the feelings gold
Focus on the time to help myself
I-I only need the time to get some help
Then the sooner I'll feel fine, I know that though
I see it in my mind the feelings gold

Sipping on it much ain't good for ya
It's like you order for two to forget what you've been thinking
of
Keeps going down, keeps filling up
Someone stop me, tie me down
Had enough, lost my hearing for a while
Never listened up
Advice from my vices, man, it's not enough

Oh, these days, how the hell would I know?
Wasn't wrong, wasn't right, who am I to follow?
Oh, these days people always lie, though
I can't go back, even trust the bible

Focus on the time to help myself
I-I only need the time to get some help
Then the sooner I'll feel fine, I know that though
I see it in my mind the feelings gold
Focus on the time to help myself
I-I only need the time to get some help
Then the sooner I'll feel fine, I know that though
I see it in my mind the feelings gold
