

u can do better

Verzache

Driving down a one way
You're deiving down a one way

A couple years been a lot that I lost yeah
Gonna have to put a hold on those problems
I'm breathing in the cost breathing in my profits
No shot a gold watch'll do my talking

Time behind closed doors I've been hiding
Changing up the usual keep making progress
But I'm sleeping in all day and I'm whiling
She's in your head and she's calling calling

To say "Darling, I'm all you want"
And that's all you know
So I'm not alone
Can't comprehend how you could
While I'm hating myself
She's calling calling

Kinda pissed
It's all the same things I've been through
Over and over, how crude to think
Maybe I've got it out for myself

Don't matter what
It don't matter when
I can't find a way to forget my sins
When she comes back for me
She knows what I'll say
Don't take one step ahead
I'll take three away

You're not listening
Just keep caving

To say "Darling, I'm all you want"
And that's all you know
So I'm not alone
Can't comprehend how you could
While I'm hating myself

Can't seem to get past
The weight of my fears
That look in the mirror
And I'm what you'll deal with forever
My intentions were clear
I'm not for you dear
Don't wait for me 'cause you can do better

You're driving a one way
