

Current Carry

Vetiver

How I'm lucky to call you mine
Oh, I don't forget
If I'm quiet I'm only thinking of
Just how good it gets

I think we're on our way
Finally out to sea
Pulling all away, dream

When doubt starts mending now
Somehow, we'll still pull through
I trust in us, have faith to hold on
Cause I know we're going to

Have faith put on our way
Finally out to sea
Coasting all away, free

Don't worry baby, we can't go wrong
Feel how the currents come in strong
We'll really carry, overflow
I ain't saying nothing you don't know

We must be on our way
Finally out to sea
Floating all away, free
Finally out to sea
Waving back to shore, free
