

Swaying

Vetiver

Come take my hand
Show me where the night begins
Your summer song is catchy
Now it's in my head

I'm here to find
Where the answers end
The two of us
Palm trees in the wind
Swaying

Off the map
Vacant scene, painted black
Yeah but that's alright
We're holding on to what we've got
For now

We're here to find
Where the answers end
The two of us
Palm trees in the wind
Swaying

On the wild side
Flaunting what the timid hide
The night all shook up, tempest-tossed
The planet got away from us

Still to find
Where the answers end
The two of us
Palm trees in the wind
Swaying
