

## Wanted, Never Asked

Vetiver

Once a songbird caught me by surprise  
With the strength of its singing  
A bright call took flight, pierced the air  
Like a lone bell a-ringing

What's past is past  
Wanted, never asked

I don't expect to get a second chance  
To choose my words as I mean to  
But I'd take it all back, I was wrong  
Now I know what you've been through

What's past is past  
Wanted, never asked

A songbird's shadow upon the lawn  
Lies in wait since you're gone

Sun sure falls fast  
No shadow cast  
What's past is past  
Wanted, never asked
