

# Blackout

VETO

We've been over this  
We've been over this a hundred times  
And I'm tired now  
Yes, I'm tired now

We've been sitting here  
We've been talking now for hours on  
And I'm tired now  
Yes, I'm tired now

You are nothing without that someone  
To keep you from blackin' out

I've been walking here  
I've been walking here for hours now  
And I'm tired now  
Yes, I'm tired now

When you see this place  
The things I said will rewind and play again  
And I can't fight accord to pull them inverse

So I look forever, look forever, look forever

You are nothing without that someone  
To keep you from blackin' out
