

Built to Fail

VETO

I was giving you some kind of a present
I was giving you, though you're more than i deserve
And i was pointed to give you everything you need
But instead i do whatever it is i please

And i was built to give you
more than do now
And i was built to show you
more than i do now
And i was pointed to give you
the world on a platter
But instead i just sit here and do nothing that really matters
x2

You lift me up from
The world of falling
You kept me going
And this is how i thank you x6

You lift me up from
The world of falling
You kept me going
And this is how i thank you x5
