

## Short Fused

VETO

If you have a chainsaw  
you can always cut out a door  
if you can find a reason  
you can always kick off a war

If you have a short fuse  
you shouldn't have  
the guns and the bombs  
but if you have a big mouth  
you can always talk your way out

It would be better if  
you we're on the right side  
get on my side

You could stop now

But if you're feeling left out  
you can always just drop us a bomb
