

You Can't Afford It

VETO

You can't afford it
You can't afford
To get anything done
How much you need it
It's not a factor for anyone

'Cause they'll find you
Wherever you hide
And punch you back to
Where you started

And unless you can think
Of an easier way
The only way to escape
Is by being blackhearted

You can't afford it
You can't afford
To do anything right
So how much you want it
Depends on
How long it takes you
To swallow your pride

'Cause there'll be no time
For you to find
Truth or love
Or people you left behind

You can't afford to
Do something decent
With your time

We're taking everything back
