

Hideous

VEXED

All I see is
Hideous
We're so accustomed to the pain can't see it's killing us
There's evil right before your eyes but you're oblivious
But all I see is
Hideous
Disguised as victims but they feed off the delirious
Calculated subtle choices
It's insidious

You might have them fooled but not me
A wolf in sheep's clothing is all that I see
So keep crying and whining go howl to the moon
Cos one day you'll be left alone to lick your own wounds

You can't pull the wool over my eyes
Your disguise is a failed attempt of looking elegant
But to me you know all I see is

Hideous
We're so accustomed to the pain can't see it's killing us
There's evil right before your eyes but you're oblivious
But all I see is
Hideous
Disguised as victims but they feed off the delirious
Calculated subtle choices
It's insidious

Am I the only person here
Who isn't falling for your tears?
No amount of nudity
Can hide the ugliness beneath

All I see is
Hideous
We're so accustomed to the pain can't see it's killing us
There's evil right before your eyes but you're oblivious
But all I see is
Hideous
Disguised as victims but they feed off the delirious
Calculated subtle choices
It's insidious

Sit, lie down, roll over if you please
But all of your tricks little or big they don't impress me
I'm the only one who's got you all figured out
You and your fucking big mouth

Am I the only person here
Who isn't falling for your tears?
No amount of nudity
Can hide the ugliness beneath

All I see is
Hideous
We're so accustomed to the pain can't see it's killing us
There's evil right before your eyes but you're oblivious

But all I see is
Hideous
Disguised as victims but they feed off the delirious
Calculated subtle choices
It's insidious
