

Break

VHS Collection

Wasting time
Living on the moon
Floating up and run away with you
Clouds align
We are falling through
Turning grey, and then they fade to blue

We are going crazy, hey hey
We so want to save me

My mind won't break
That's what I'm screaming out
My mind won't break
I choose that feeling [?]
My mind won't break

Strange to sign
Was it scalding me?
So I wrote my own philosophy
Take some wine
Leave the memory
Soak it up until your mind is free

We are going crazy, hey hey
We so want to save me

My mind won't break
That's what I'm screaming out
My mind won't break
I choose that feeling [?]
My mind won't break
My mind won't break
My mind won't break

(We are going crazy, hey hey
We so want to save me
We are going crazy, hey hey
We so want to save me)

My mind won't break
That's what I'm screaming out
My mind won't break
I choose that feeling [?]
My mind won't break
(Am I going crazy?)
My mind won't break
(Is it late to save me?)
My mind won't break
