

Dreaming

VHS Collection

I always knew I had a voice
But only used it when I'm all alone
Am I sinking deep or standing tall
Only thing that kept me going
Were the haters that would say
That I could never make it on my own
Maybe one day I could prove 'em wrong

Don't wake me up, and oh-whoah
Don't wake me up, and oh-whoah

I been dreaming, I been dreaming
I been dreaming of this day for a lifetime

I been dreaming, I been dreaming
I been dreaming of this day for a lifetime

I been waiting for this moment since I was young
A thousand light years around the sun

I been dreaming, I been dreaming
I been dreaming of this day for a lifetime

I try and jump across a mountain thinkin' I know where I need to go
I always end up at the bottom where I started off
'Cause I was walkin' down the street with no reason
Thinkin' I could never amount to nothin', oh no
Maybe one day I could prove 'em wrong

Don't wake me up, and oh-whoah
Don't wake me up, and oh-whoah

I been dreaming, I been dreaming
I been dreaming of this day for a lifetime

I been dreaming, I been dreaming
I been dreaming of this day for a lifetime

I been waiting for this moment since I was young
A thousand light years around the sun

I been dreaming, I been dreaming
I been dreaming of this day for a lifetime

I came alive, I came alive
I came alive, I came alive
I came alive, I came alive
I came alive, I came alive

I been dreaming, I been dreaming
I been dreaming of this day for a lifetime

I been dreaming, I been dreaming
I been dreaming of this day for a lifetime

I been waiting for this moment since I was young
A thousand light years around the sun

I been dreaming, I been dreaming
I been dreaming of this day for a lifetime
