

# Fade Out

VHS Collection

Come on and take a ride  
I want to satisfy  
Your wanderlust  
Take me away from here  
Take you away from here

I want to change your mind  
I want to step outside  
And break some rules  
I'll be your getaway  
You'll be my getaway

And fade out with me  
And we'll ride into the setting sun  
And fade out, break free  
Close your eyes, throw down your guns

I'm feeling trapped by the man  
People they don't understand  
I've had enough  
They try and cut you down  
Don't let them cut you down

They're coming from both sides  
They never enjoy life  
And they're stuck in the middle alone  
And life will move so fast  
So leave behind the past  
And be free

And fade out with me  
And we'll ride into the setting sun  
And fade out, break free  
Close your eyes and throw down your guns

Fade away, throw down your guns

Wandering past my future  
Coming out [?]

And fade out with me  
And we'll ride into the setting sun  
And fade out, break free  
Close your eyes and throw down your guns
