

Floating

VHS Collection

All for nothing, but all is good
I'm scared for something, I'm scared I could
Tongue in my cheek and my foot in my mouth
Heart on my sleeve and my head in the cloud

I'm not sure this plane has lifted ground
Part of me will always be floating, floating
I'm not afraid of going down
Heart on my sleeve and my head in the clouds
I am floating, floating down

Falling apart, fall into place
Out of the woods, lost in space
I'm already free, I have to decide
I'm not down with the sea, but up in the sky

I'm not sure this plane has lifted ground
Part of me will always be floating, floating
I'm not afraid of going down
Heart on my sleeve and my head in the clouds
I am floating, floating down

I can't touch the ground
I can't touch the ground
I can't touch the ground

I'm not sure this plane has lifted ground
Part of me will always be floating, floating
I'm not afraid of going down
Heart on my sleeve and my head in the clouds
I am floating, floating down

I'm not sure this plane has lifted ground
Part of me will always be floating, floating
I'm not afraid of going down
No, I'm not afraid of going down
I am floating, floating down
