

# Ghost

VHS Collection

When I get bored, I take the subway  
And ride it to the end of the line  
Pull the chord after Broadway  
Just to keep from losing my mind  
I ride the roller coaster, kinda like a movie poster  
I just want to feel more alive  
When we get bored, I board the subway  
It's lonely on the island tonight

I feel it in my bones  
All I need is you  
I feel it in my bones  
All I need is you

On the Bowery, I was lonely  
And these are streets where I used to sleep  
I came from far away toward the memory  
Manhattan was a city of dreams  
I was a real fast talker, hustler, and a sad street walker  
I was trying just to survive  
On the Bowery, that's where they showed me  
How to live like I'm alive

I feel it in my bones  
All I need is you  
I feel it in my bones  
All I need is you  
I feel it in my bones  
All I need is you  
I feel it in my bones  
All I need is you

The city will burn, the city will fade  
With you by my side, as I'm walking away  
The city will burn, the city will fade  
The lights will go out on a Saturday

I feel it in my bones  
All I need is you  
I feel it in my bones  
All I need is you  
I feel it in my bones  
All I need is you  
I feel it in my bones  
All I need is you
