

Wake up the white lights are calling
The weight of the world's pressing down
Watch out, the skyline is falling
Transmission is lost into the ground
For so long I've been hoping
One day we could run away
Wild eyes have gotten lost forever
But just know I'll find you anyway

I've been waiting so long
I was holding out
Up in the dark, up in the empty bar
With broken glass in my hand
We've been bleeding out
I wait before the night
I wait before the night to start

Till we are one
So we just stare into the sun
Collect the barrel of a gun
Never know, never know until we run
Till we are one

Lost now, I've been searching
Washed out, alone, city lights
Each day the signal is stronger
So I know that there's still a fight

I've been waiting so long
I was holding out
Up in the dark, up in the empty bar
With broken glass in my hand
We've been bleeding out
I'm waiting for the night
I'm waiting for the night to start

Till we are one
So we just stare into the sun
Collect the barrel of a gun
Never know, never know until we run
Until we are one
So we just stare into the sun
Collect the barrel of a gun
Never know, never know until we run
Until we are one

Until we are one
So we just stare into the sun
Collect the barrel of a gun
Never know, never know until we run

Till we are one
Till we are one
Till we are one
Till we are one
Till we are one
Till we are one
Till we are one
